

tesa® ACX^{plus} Multi Purpose (MP) Acrylic Foam Tapes

tesa® ACX^{plus} MP is a high performance, cost-effective line of acrylic foam tapes designed for use in a wide range of applications such as mounting, bonding, sealing, vibration damping, shock absorption, and more.

ACX^{plus} MP creates a lightweight, permanent bond between substrates while spreading the stress load across the entire joint. ACX^{plus} MP is an excellent alternative for screws, rivets, welds, and other forms of mechanical fastening in your design.

Characteristics of tesa® ACX^{plus} MP

- Two products offered with differing thickness:
 - tesa® ACX^{plus} MP 7273 at 32 mils (0.812 mm)
 - tesa® ACX^{plus} MP 7274 at 45 mils (1.143 mm)
- Color: light gray
- Viscoelastic, closed-cell, acrylic adhesive foam construction
- Resistant to hot, cold, and cycling temperatures, environmental conditions, UV light, moisture, and solvents
- Applies easily, quickly and accurately to a variety of surfaces
- Smooth, invisible appearance when applied
- Great initial tack and excellent permanent adhesion once fully cured
- Easy to die-cut into custom parts and components for your design
- Die-cut parts can be kiss-cut to a liner, supplied on rolls, or individualized
- Die-cut parts can be manufactured with pull-tabs or extended liners for ease of placement

AS A TESA® PLATINUM CONVERTER PARTNER, MARIAN HAS ACCESS TO:

TESA'S EXTENSIVE ADHESIVE AND TAPE PRODUCT LINES

Marian has access to a broad selection of tesa® premium tape products. We stock many tesa® materials for quick sampling and prototyping.

EXCELLENT TECHNICAL SUPPORT

Marian collaborates with tesa® technical experts who support customer projects with troubleshooting, product development, and material testing.

SALES SUPPORT AND TRAINING

Each of Marian's Sales Engineers works closely with tesa® sales representatives in their geography. Marian Sales Engineers also receive regular training on the newest adhesive developments and new product launches by tesa®.

PLATINUM
CONVERTER
PARTNER

Marian is a global leader in providing precision die-cut component parts for customers in the consumer electronics, automotive, and medical industries. With over 1,000,000 square feet of production space worldwide and state-of-the-art manufacturing technologies, Marian engineers work closely with customers to solve complex manufacturing and assembly problems. Marian's responsive approach, in-depth material knowledge, innovative manufacturing capabilities, and high standards for quality all add up to provide you with the best component solutions in the industry.
