Solutions for **PLASTIC INJECTION MOLDERS** who offer value add & secondary manufacturing services

INCREASE EFFICIENCY, DECREASE LABOR COSTS

- Parts with pull-tabs, extended liners, assembly aids, etc.
- Parts designed to improve assembly process

ELIMINATE QUALITY ISSUES

- High complexity at tight tolerances
- High quality materials

ACHIEVE HIGH VOLUMES AND HIGH REPEATABILITY

- Unmatched manufacturing capacity

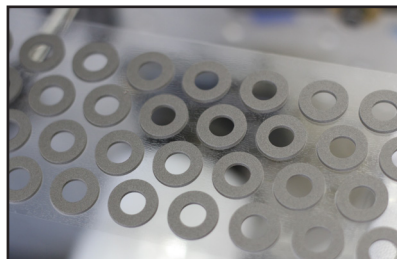

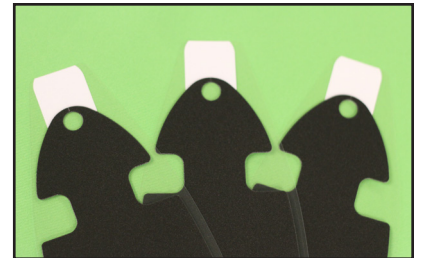

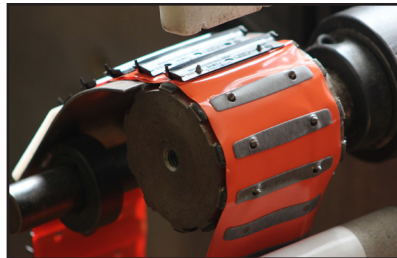

IMPLEMENT AUTOMATED PLACEMENT AND ASSEMBLY

- Parts designed for automated placement
- Strong partnership with Accuplace

DIE-CUT SOLUTIONS

- Gaskets & seals
- Foam & sponge washers
- Adhesive bonding components
- Filters & vents with zoned adhesive
- Automotive emblem tapes
- Protective films for Class A surfaces
- Lens gaskets
- Enclosure bonding
- Masking

MARIAN

Marian is a global leader in providing custom, precision die-cut component parts for customers across many markets all over the world.
